Price: \$299,000

Motor Vessel . "Q A 3" Located Saint Petersburg . Florida

This vessel is a 1978 48 Hatteras long range cruiser two stateroom & heads that has had a major refit inside and out with innovative improvements. A custom built mast that is hinged so as it can be lowered to service the two open array Ray Marine radar antennas or the KVH TV dome or the other mutable antennas, VHF, GPS, etc. All handrails on the upper deck are welded one inch stainless steel with modifications to accommodate the eleven ft ABS dingy and 25 hp Evinrude E-Tec outboard. Also on the upper deck a custom built Nautical Structures davit. The fly bridge has a complete enclosure with one inch SS frame work. Three custom Pompanette helm chairs plus a built in cold plate cooler in the rear seating.

The forward deck on the bow pulpit has a hydraulic anchor windlass one 45 lb CQR with 300 ft SS chain rode plus a 40 lb Danforth & 300 ft line rode, and hydraulic bow thruster.

Aft cockpit has a teak deck & cover boards, custom built in freezer , new dive platform 12 inches deeper than the original, and hydraulic stern thruster.

Forward stateroom has been remodeled with mahogany sides & shelves. Paneled headliner that is throughout entire boat and can be removed to access wiring etc.

Heads have been remodeled with Corian counter tops, walls & ceilings in showers plus glass doors and enclosures, imported tile floors and new lighting.

Master stateroom also has been remodeled with Corian counter tops, added drawers throughout with full length SS glides, widened bed and teak floors that are installed throughout entire boat.

Pilot house configuration was changed with new raised "L" shaped dinette & seating , Helm station was streamlined to improve sightlines, most secondary electronics were installed overhead.

Main salon and Galley were extensively remodeled with Corian & mahogany counter tops, blind cabinet corner has built in freezer, propane stove, custom built cold plate refrigerator with separate wine cooler, redesigned air conditioning ductwork & air handler placement to be more efficient, wood blinds throughout and continuation of teak floors. Stereo cabinet with speakers and controls also throughout boat. Built-in washer dryer & drawers on full length SS glides.

Engine room contains two Detroit Diesel 453 130hp natural aspirated engines, 20kw Northern Lights main generator , 8kw Northern lights secondary generator, hydraulic pumps and reservoirs for stabilizers and bow and stern thrusters, six 8d AGM gel batteries in covered built-in box, Constavolt charger, Inverter for power system, four AC compressors, one 12volt water pump, one 115volt water pump, engine oil change pump & system, pump & reservoir for dingy davit arm, port & stb. fuel tanks. Very aft compartment , redundant refrigeration compressors . HRO 20 gph water maker, port & stb. water tanks, spare props, rudder shafts & tire rod plus hydraulic steering piston.
